Profile Summary

Software Developer with strong problem-solving skills and hands-on experience in programming, DSA, and full-stack development. Experienced in building web applications, database systems, and hardware-based solutions, with a focus on developing efficient and scalable software.

Technical Skills

Languages: Python, Java, C/C++

Web Technologies: React, Node.js, JavaScript, TypeScript, HTML/CSS

Python Technologies: NumPy, Pandas, Matplotlib, TensorFlow, Streamlit

Databases: MySQL, MongoDB, Supabase

Tools: Git, GitHub, VS Code, IntelliJ

Core Concepts: OOPs, DSA, DBMS, Operating Systems, Software Engineering

Projects

Pathology Management System | Live Link / GitHub | *TypeScript, Supabase* ***Software***

- Developed a full-stack pathology management system featuring secure admin authentication and patient record management.
- Implemented predefined pathology tests with automated pricing, result entry, and printable report generation.

AI-Based Medical Image Diagnosis System | GitHub | *Python, TensorFlow, Streamlit* ***Software***

- Developed a deep learning-based application using Python and TensorFlow to classify pneumonia from chest X-ray images.
- Designed an interactive interface to upload medical images and display prediction results.

Smart Classroom Help System | Live Link / GitHub | *React, Node.js, MongoDB* ***Software***

- Developed a collaborative learning platform enabling students to post queries and receive real-time responses from teachers.
- Built full-stack functionalities using React, Node.js, and MongoDB.

Armory Management System | *Arduino, Sensors* ***Hardware***

- Developed a monitoring system using fingerprint and ultrasonic sensors for authentication and tracking.
- Enabled real-time detection and security monitoring for restricted access.

Experience

Acmegrade ***Jun 2025 – Aug 2025***

Artificial Intelligence Intern ***Remote***

- Worked on AI/ML concepts, including data preprocessing, model development, and practical implementations.

Codevirus Security ***Jun 2025 – Jul 2025***

Web Development Intern ***Remote***

- Worked on front-end and back-end web development, focusing on responsive interfaces and secure coding practices.

Academic Qualification

Bachelor of Technology in Artificial Intelligence & Machine Learning ***2023 – 2027***

United University, Prayagraj, UP

Intermediate ***2022 – 2023***

B.B.S Inter College [U.P. Board], Prayagraj, UP

High School ***2020 – 2021***

Shiv Ganga Vidya Mandir [C.B.S.E. Board], Prayagraj, UP

Achievements

250+ LeetCode Problems Solved | *DSA*

- Solved 250+ problems on LeetCode covering Arrays, Strings, Sorting, Binary Search, Linked Lists, Stacks, Queues, Trees, and Dynamic Programming.

Best Hardware Award – HackDiwas 2.0 | *United University* ***May 2025***

- Won the Best Hardware Award for developing an Arduino-based Armory Management System at HackDiwas 2.0.

Lead Organiser – HackDiwas 3.0 | *United University* ***Apr 2026***

- Managed and coordinated a national-level hackathon with 550+ participants.
